

Annual Plans for Saijo Kids Disaster Prevention Summit in 2014

Disaster Prevention Camp

Thursday August 7, 2014

『Let's learn important things to survive disasters』

- ◎60 chosen elementary school children participated (locals and other children observed)
- They discussed about required knowledge, skills and preparedness for disasters through the camp
- They learned things to practice for disaster prevention (each group picked a theme)

Let's find useful information to help others and organize them!

Second meeting

Wednesday December 10, 2014

『 Learn disaster-prevention measures we can practice on our own』

- Change from "We know" to "We prepare"
- ◎ All 6th graders from 25 elementary schools in Saijo will participate
- Presentation by the appointed school on their approaches to disaster-prevention
- Discussion

Goal (Aim)

To learn disaster-prevention measures we can practice on our own

Activities of each school

Practice at school and home

From summer holiday to second term

『Keep the project on schedule and prepare as a proposal』

- ◎60 chosen elementary school children practiced
- Compiled their approaches under the theme of each team as a proposal after the camp

Theme (Wish)
Saijo to become a disaster prepared city!

First meeting

Wednesday July 30, 2014

『Let's learn about annual activities and present the things we want to know』

- ◎ 60 chosen 6th graders from 25 elementary schools in Saijo participated
- Students were given portfolio in advance to summarize their ideas (theme, goal, annual schedule, study plan)
- Each presented about things we want to learn through the summit
- They learned about annual activity plans
- They learned the purpose and contents of the camp

Keep the group project on schedule and organize a proposal. Reports from each school are put together into a book of proposals.
